

# Performance IT Consulting and Project Services for the Global and London Insurance Markets

## WHO WE ARE

Atticus Associates specialise in helping insurers, brokers and related service providers assess, plan and deliver successful technology projects with a strong focus on our core values of quality, trust, openness and integrity.

In taking our fresh approach to project delivery we have received some excellent feedback at both CIO and COO level for our work to date in 2008 / 2009:

*'another great result for the Atticus project team'*

*'high quality individuals we can trust with solid insurance experience ...'*

*'team players who can hit the ground running...'*

## HOW WE CAN HELP YOU

### IT CONSULTING

- Project assurance and risk management
- E-placement and web messaging initiatives
- Enterprise IT cost review and reduction
- Document management and workflow
- Infrastructure delivery and ongoing support
- Review and selection of insurance systems
- Management of off shore resource

### PROJECT SERVICES

Atticus offer an **intelligent, value added alternative** to using recruitment agencies to service project resourcing needs. Our flexible approach is to:

- **Work with you** to fully scope and assess the specific requirement needed and intended results
- Provide a choice of quality Atticus Associates whom you can trust to work seamlessly with your existing team or to deliver alone as required
- Our USP - we actively **manage our ongoing delivery quality** for the duration of our assignment
- Impart Atticus expertise across Project Management, Business Analysis and Testing strategy
- Focus on knowledge transfer and provide 'external view' through our **in-depth Market experience**.

We pride ourselves on providing high quality Atticus people with the right 'fit' for your project team in respect of their experience, technical ability and interpersonal skills.

## RECENT ACHIEVEMENTS

Over the past year we have successfully delivered across a number of key assignments including:

- Delivered full system support for the rollout of a new Lloyd's Syndicate (£200M capacity)
- US roll out of infrastructure to support the global expansion of major retail insurer
- High risk migration of a major online B2C platform for a leading Retail insurer
- Online trading system for K&R insurance
- Deployment of critical risk modeling software
- Successful interim IT management with focused handover delivery to permanent staff.

## BENEFITS

There are a number of tangible benefits from working with us:

- Extensive market knowledge and project experience but with **fresh, innovative ideas**
- **Improved ROI** and productivity over traditional project resourcing routes
- Access to our team of high quality, **trusted associates** delivering to Atticus values
- **Ongoing support** at Atticus Director level
- **Delivery focused** - reduced risk of project overrun, ambiguity and consequent costs.
